

How to Stay Compliant with dashTM

We are prepaid experts, and compliance specialists.

We've spent more than two decades delivering compliant payment and reward programs, so that you don't have to.

Across the dashTM suite, Prepaid Technologies adheres to all applicable federal and state regulations, as well as industry compliance requirements.

Seasoned Prepaid Program Manager

Prepaid Technologies is the leading Program Manager in the Prepaid space. We collaborate with our support partners - our processor, the card networks, and our issuing banks - to deliver products that drive value for our customers.

Compliance and Configuration: Prepaid Technologies listens carefully to the market and configures products that meet a spectrum of client needs. By doing this in a compliant manner, often exceeding regulatory standards, we elevate the customer experience and it sets us above and apart.

Risk Management

We actively manage a set of controls that deliver a safe and secure client and cardholder experience. These range from performing the appropriate due diligence on the front-end, to monitoring cardholder transactions to mitigate fraud.

Need to see our compliance and regulation documentation?

It's all in our online toolkit.
